

SECTION III
MINIMUM MEASURE 3
ILLICIT DISCHARGE DETECTION
& ELIMINATION

**SECTION III
(MINIMUM MEASURE 3)
ILLCIT DISCHARGE DETECTION & ELIMINATION**

1. Fact Sheet on Illicit Discharge Detection & Elimination

A Fact Sheet on Illicit Discharge Detection and Elimination (IDDE) shall be prepared in Year 3 addressing the following dry-weather flows:

- Sanitary Wastewater Flows
- Industrial and Commercial Pollutant Flows
- Overflows from Failing Septic Systems
- Flows from Vehicle and Maintenance Activities

Emphasis will be placed on the elimination of inappropriate connections to urban storm drains and the requirement for the Town to adopt local laws to eliminate non-storm water discharges into storm drains.

2. Presentations to Business and Public Employees

In Year 3, presentations will be made to businesses and public employees on developing goals and implementation strategies for controlling non-storm water discharges into storm drains.

3. Establishing Legal Authority

In Year 3, the Town will identify responsible Department/Agency and start developing local illicit discharge ordinance.
